Format

- Each week, players will compete in either a four or five person round robin. Four person round robins will play three games to 15, win by one. Five person round robins will play four games to 11, win by one.
- Medals will be awarded for the top three finishers.
- There will be no substitutions. If a player is absent all subsequent players will move up a space. Players can miss one week of play with no court penalty. Players who miss 2 or more weeks of play will be assessed a two court lower penalty and will not be eligible for a medal.
- Maximum possible points will be 45 per week. A cumulative percentage of points earned/points possible will be kept for medal ranking and for future Shootout Ladder League placement starts.

***Recreational:** Play with friends and meet new players at your level in a fun and social environment. It's the perfect transition after taking one of our Pickleball Introductory Series courses. You must know how to score and we will have someone on hand to organize each week.
